Spellbinders®

WELCOME

When I founded Spellbinders in 2003 it was built on my passion for crafting; 14 years later, the company has grown and so too has that passion.

I understand just how personal creativity is, and so Spellbinders now has a team of wonderfully diverse and talented in-house designers whose distinct styles will embrace and support every creative taste.

It's fair to say that as a company, we really do understand crafters and crafting - that's what we're all about! - and so every product we bring to you, from dies to machines, gadgets to storage solutions, comes from a sound knowledge; if we love and need it, we know you will too! In fact, we devote our time to developing machines and tools to ensure crafting is frustration-free leaving you to enjoy what you love doing most - creating fabulous makes to be proud of.

We have many new products in line for this year and 2018, and beyond that we will, of course, continue to power creative hearts and minds.

Happy crafting!

DIES & MACHINES

Boost your papercrafting kit and expand your creative horizons

Oh so pretty

S4-707 Graceful

Borders Damask, £16.99

Elegant and intricate, these border dies will add a touch of class to the edges of your cards. Use alone or in addition to the Frame Maker die (right) for clean cut, symmetrical corners. Edge the pages of a special scrapbook, pin to dresser shelves for a vintage kitchen feel or wrap around glass jars for dainty tea light holders.

Borders 6" x 6" Frame
maker, £24.99

This clever mitred square allows you to turn any border die into a perfect frame shape. Use this set to enhance your card backgrounds, decorate envelopes or frame your favourite photos.

Go for bling
S6-123 Rebel Rose
Rebel Jewels, £24.99

This bang-on-trend die set combines cut crystals with curves and circles. Each square design would work beautifully when cut from pearlescent card and mounted onto a jewel coloured background. Perfect for romantic greetings, wedding invitations or as jewellery display cards.

Everybody dance!

S4-752 Joyous Celebrations Party Kids, £16.99

A playful and nostalgic die, this works as a single motif or combines to make a border. Cut from black card to make a clean silhouette against a floral background. Use several die-cuts as a frieze or string together for party bunting.

Floral fancy

S3-252 Vintage Elegance Round flower Fold 'n' Go, £12.99

These accurate petal dies are creased, folded and slotted together to create perfectly round flowers with equal spacing between petals. Four petal sizes allow you to build up impressive layered blooms or make eye-catching arrangements. A single flower could decorate a card and hundreds of blooms could dress DIY wedding tables.

MACHINE TROUBLESHOOTER

Coming a bit unstuck? We'll show you how to get the best out of your die cutting machine:

➔ How do I know if my sandwich is too thick to go through the machine?

You will feel a resistance and find it difficult to turn the handle. If this happens, back out the sandwich and remove some layers.

➔ My machine looks great, how do I keep it clean?

You can use a microfibre cloth to keep the daily dust off or a slightly damp cloth to remove any marks.

➔ My cutting plate is starting to warp - will this affect its cutting ability?

No, but the warping is inevitable. There are ways to extend the life of your cutting plate; flip it over each time you use it and front to back. Also, if at all possible, don't always cut in the centre. You will know it's time to replace it when it no longer makes clean cuts.

4 BRILLIANT DIE MACHINES

Hot buys! ...

Platinum™ Die Cutting & Embossing Machine, £159.99

Offering unsurpassed pressure and durability, the Platinum comes in platform sizes 6" or 8.5". It can cut most etched/wafer thin, steel rule dies and be used with most texture plates and embossing folders. Cutting more than 40 different materials, including leather, wood and fabric, the Platinum is great for fabric arts, mixed media, home décor, DIY, and much more!

Grand Calibur® Die Cutting & Embossing Machine, £119.99

A large cutting platform that can cut up to 8.5" of most etched/wafer thin dies, together with its texture plates and embossing folders (embossing folders require an additional Raspberry Spacer Plate), makes the Grand Calibur ideal for projects such as cardmaking and scrapbooking.

Prizm™ Die Cutting & Embossing Machine, £34.99

This portable machine cuts up to 2 1/2" wide etched/wafer thin dies, and is perfect for all papercraft projects. Compact and lightweight this is an affordable addition to your papercrafting kit.

I love making art tags and mini books out of tags, so naturally my Shortie Tags is a perfect fit for me. But even more so, I love them because they are shorter than other tags the same size, making them fit perfectly into my larger pocket dies. To make them even more versatile, they come with different edge dies that allow the user to cut a variety of decorative edges from the tag. Shortie Tags is quickly becoming a go-to set for me!
